# Wintech Engineering LLC

We proudly announce the introduction of a fully Computerized Dynamic Balancing Machine in our portfolio.

Now we can serve you on your balancing requirements

## Machine Specification

Maximum Diameter of work piece - 1800 mm

Maximum Weight of work piece - 2000 kg

Drive - Belt and Direct

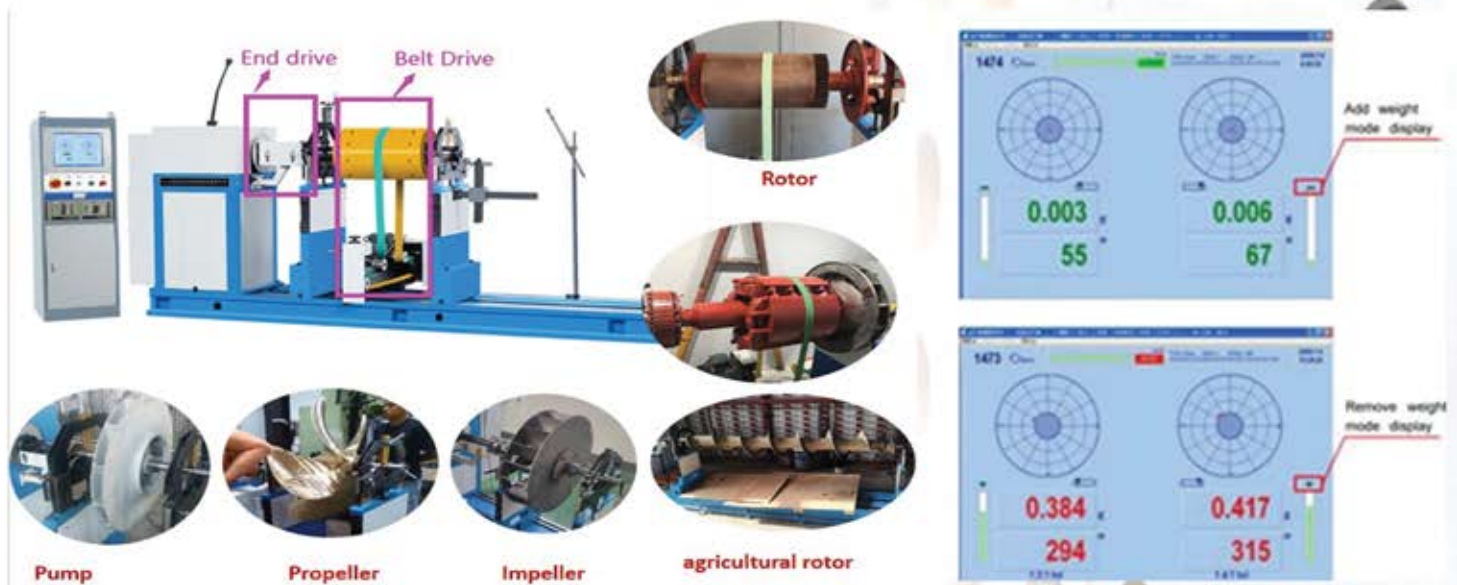

Speed - Up to 5000 rpm with Inverter

Minimum Resolution - 0.01 mg

Minimum achievable residual unbalance for belt drive - < 0.5 g.mm/kg

Minimum achievable residual unbalance for direct drive - < 0.15 g.mm/kg

Maximum bed length - 3000 mm
